PROJECTS

■ **E-commerce Website**
- Architected a full-stack application using JavaScript, Node.js, Express, Mongoose, HTML, and CSS.
- Implemented user authentication and authorization for enhanced security.
- Integrated a secure payment gateway for safe transactions. **github**

■ **Social Media Website**
- Created with React and Tailwind CSS for a responsive UI, improving user engagement noticeably.
- Programmed server-side functions using Node.js, Express, and MongoDB for efficient data handling, reducing data retrieval times significantly.
- Enhanced security with advanced user authentication and authorization, reducing security breaches. **github**

■ **Mini Projects:**

User Management Website :
- Crafted a user-friendly interface using React, resulting in higher user satisfaction scores.
- Programmed server-side functionality with Node.js, Express, and MongoDB, supporting high concurrency.
- Added user authentication and role-based access control, improving access management. **github**

Todo List Application :
- Engineered using React, implementing robust state management, reducing state-related bugs.
- Designed a responsive layout to ensure seamless functionality across various devices, increasing mobile usage. **github**

Olx , Netflix Clone :
- Built an OLX clone using React.js and Firebase, featuring real-time listings and robust user authentication. **github**
- Constructed a Netflix clone using React.js, replicating core features and UI components. **github**

Weather App :
- Constructed a React-based weather application that integrates API calls to fetch live weather data, offering location-based forecasts with interactive elements aimed at improving user retention. **github**

EXPERIENCE

■ **MERN Stack Developer**

Coding Bootcamp | Dec 2022 - Present
- Engineered an e-commerce website featuring secure payment integration, user authentication, and authorization using JavaScript, Node.js, Express, and MongoDB.
- Implemented multiple mini-projects to showcase proficiency in React, Node.js, Express, and MongoDB, significantly enhancing project variety.
- Enhanced coding efficiency and design patterns, resulting in faster project completion through weekly expert reviews.

EDUCATION

June,2019 - July,2022)
Calicut University

BSC Computer Science

SKILLS

Front-end Development:
- React.js
- Redux
- HTML5
- CSS3
- JavaScript (ES6+)
- UI Libraries (Tailwind, Bootstrap)
- JSON
- AJAX

Back-end Development:
- Node.js
- Express.js
- RESTful API development
- Database (MongoDB, SQL)
- Server-Side Rendering
- Postman
- Version Control & Collaboration: Git GitHub

Soft Skills:
- Effective communication in project development.
- Strong analytical abilities in decision-making.
- Continuous learning through professional development.
- Leadership in mentoring team members.

LANGUAGES

- English
- Malayalam
- Tamil
